AGENTS,
C. W. CRANE, 400 Montgomery St., San Francisco
W. H. GARDNER, Bullionville
T. STARR, Hamilton

THE RAYMOND & ELY VS. THE
KENTUCKY MINING COMPANY.
Judge Beatty's Decision.

[Continued from our issue of the 10th.]
The Panama location was recorded as
follows:

W. H. GARDNER, Bullionville
T. STARR, Hamilton

THE PANAMA LOCATION:
The above is a copy of the claims and
the names of the owners interested,
which runs one hundred and fifty feet
more or less from the discovery stake, to a
stake placed in the ground by Thomas
Box southward from discovery stake, and
northwest eight hundred feet more
or less from discovery stake, to a stake
placed in the ground by Stephen Sherwood,
this 15th day of March, A. D. 1864.
Stephen Sherwood Recorder, per S. S.
Shutt, Deputy.

In that part of the above record
relating to the plat, the words "discovery
stake" were not doubt used by mistake
instead of "discovery claim." The plat
also probably contained something which
was not on the notices as posted.

The statement in the first part of
the record that the plat had been surveyed,
etc., was based upon something said on
the 17th of March, by Hamilton or Cill, to
the effect that there had been a sort of
survey of the old claims by the surveyor
of Washington county.

The record which was actually made in
Salt Lake City in April, 1864, was dated
back to March 18th, when Sherwood first
received the notices as Mining Recorder.

The claim of Thomas Box, which com-
menced at the southern end of the Pulisier
claim, was recorded in the following man-
ner:

"This certifies that Thomas Box claims,
by prescription, two hundred feet in
length by one thousand in width on the
Panama silver lead, as claim number two
[2] southward from discovery claim,
this 15th day of March, A. D. 1864.
STEPHEN SHERWOOD, Recorder,
per S. S. SHUTT, Deputy."

Immediately following the above comes
the record of the claims of Thomas M. Box,
No. 3, south; Stephen Sherwood, No. 4,
south; J. N. Vandermark, No. 5, south;
S. S. Shutt, No. 6, south; and a large num-
ber of others in large numbers, all simi-
lar to the claim of Thomas Box. Some of
these recorded claims—all in fact, after
No. 12, south—were never made by any
act of location on the ground, but were
simply put upon the record at the request
of parties who thought that would con-
stitute a location.

After making these records and finding
himself with two or three thousand dol-
lars worth of supplies, the Salt Lake
party, considerably augmented in num-
bers, returned to the Meadow Valley
Mining District.

Sherwood brought with him the record
book and the files of his office, and es-
tablished himself as Recorder of the dis-
trict. From that time until the organiza-
tion of the Ely District out of a portion
of the Meadow Valley District, Sherwood
and his successors in office, or their
assistants, remained in the district, and
those records were recognized as the dis-
trict records.

It was the 24th of June, 1864, that the
Salt Lake party returned and resumed
work on the Panama vein. Early in the
same month Sherwood and Hamilton em-
ployed a surveyor to make an accurate
survey of their claims on the Panama,
and those of their collectors, and to re-
set the boundary stakes according to cor-
rect measurements.

The surveyor first marked upon a
cedar tree in the vicinity the bearing and
distance of the discovery stake. Then
starting from that point, he claimed two
hundred feet south, one hundred and
seventy feet west, and adjusted the
stake at the south line of Hamilton's dis-
covery claim. Next he measured, on the
same course, one hundred and fifty feet
and set a stake for the south line of the
Pulisier claim No. 1, south, which he
marked and numbered. In the same
way he measured off the next ten or
twelve claims of two hundred feet each,
setting stakes and marking and number-
ing them as claim No. 2, No. 3, etc.
Then he returned to the discovery stake
and measured a distance of eight hun-
dred feet in an opposite direction and
set another stake. It was found in re-
setting these stakes that the original mea-
surements by stepping were correct with-
in a few feet. During the months of
June and July, 1863, a large amount of
work was done by Sherwood, Vander-
mark, the Boxes, Shutt and Hamilton
on the croppings of the ledge and near
discovery point. They set the Panama
shaft to a depth of eighteen feet, and
made cuts and surface excavations in
two or three directions. They built a
dump and piled upon it from five to ten
tons of ore, a portion of which Hamilton
afterwards had hauled to Salt Lake City
and smelted. The total value of the work
done by these parties were about one
thousand dollars; at least three hundred
dollars worth of which was done prior to
July 15. While it was in progress, on
the 24th day of July, 1864, the follow-
ing agreement was made and executed by
Thos. Box, Thos. M. Box, Stephen Sher-
wood, J. N. Vandermark, Samuel S.
Shutt and W. H. Hamilton:

"We do hereby agree with each
other, each for himself, his heirs,
assigns, and legal representatives, as fol-
lows, to-wit: That we consolidate our
interest equally and exactly, according
to the number of feet severally owned.
Each shall hold an undivided interest in
and Company, according to the number
of feet he may own, and in the claim as
follows: William Hamilton, one hun-
dred and fifty feet, No. 1 southward.
Thos. Box, No. 2 southward. Thos. M.
Box, claim No. 3 southward. Stephen
Sherwood, claim No. 4 southward. Jacob
N. Vandermark, claim No. 5 southward.
Samuel S. Shutt, claim No. 6 southward
from discovery claim.

And it is further agreed that we organ-

VOL. VII.

ize ourselves into a company properly
and fully for the better prosecuting our
work.

In testimony whereof we have here-
unto set our hands and seals, this second
day of July, A. D. 1864.

WILLIAM H. HAMILTON,
THOS. M. BOX,
STEPHEN SHERWOOD,
JACOB N. VANDERMARK,
SAMUEL S. SHUTT,
THOS. BOX.

At the time this instrument was drawn
and signed, Wm. Pulisier was absent
from the district, but Hamilton, who
claimed to represent him, presented that
he would either join in the contract, or
that he (Hamilton) would procure a con-
veyance of his ground and bring it into
the consolidation.

At the request of the parties who did
sign, the instrument was recorded in
Book A of the Mining Records of Mead-
ow Valley District. Thereafter work was
continued by the parties to the con-
tract as above stated, until the last of
July, the larger portion of the work being
done subsequent to July 24.

On the 18th of July Hamilton procured
a deed from Pulisier, in which Pulisier
conveyed to him one hundred and fifty
feet of the Panama lode, describing it as
an undivided interest of thirteen hun-
dred and fifty feet embracing the discovery
claim.

Towards the last of July, all but five
or six of the miners had left the vicinity
of the country, without better appliances,
requiring larger capital than they could
command. The Indians, too, had be-
come troublesome, stealing their ani-
mals and threatening their lives. Un-
der these circumstances, they all re-
turned to the Mormon settlements in
other parts of Utah, except Sherwood
who remained in the district at Meadow
Valley, where a small Mormon settle-
ment had been formed in May previous,
and where they were then in July, fort-
ifying themselves against the Indians.
Sherwood remained there until the Au-
tumn of the following year.

In the mean time on the 15th of July,
1864, in view of the contemplated sus-
pension of work the miners of Meadow
Valley district met and passed the follow-
ing amendments to the mining laws:

All claims in the district which have
been or shall be properly located and duly
recorded shall be and are hereby declared
real estate and not subject to re-location.

Resolved, That article fifth [5th] sev-
enth [7th] and twelfth [12th] of the old
laws, relating to the representing of
claims are hereby repealed.

After the members of the Panama com-
pany left the ground the last of July,
1864, no further work was done on the
vein, until in September, 1865, when
Vandermark did a few hours work clean-
ing out the shaft for the purpose of hav-
ing the mine inspected by a party that
he was trying to induce to invest in it.

Sherwood remained in Meadow Valley
till the Autumn of 1865, when he started
to the Eastern States for the purpose
of trying to enlist capital in the develop-
ment of the Panama. In the Spring of
1866 he returned with a man who came
to examine the mine for a party of Illi-
nois capitalists who were contemplating
an investment in it.

The report of this man was highly fa-
vorable, but rumors of Indian disturban-
ces caused the negotiations to be broken
off.

In the latter part of 1866, Sherwood
started again to the East, leaving a man
at Meadow Valley to look after his min-
ing claims, including the Panama, and
furnishing him with a hundred dollars,
for the purpose of having some further
work done on them.
